

ASPIRANTE

Inspired design. For everyone

TRITON

The heart of every bathroom.

Pure form and function

Beauty and simplicity have always gone side by side. Where there are no superfluous parts or overcomplicated features, what you have left is pure and perfect.

Aspirante

With its ultra clean lines and minimalist styling, Aspirante is more than a shower. It's a statement. Your statement.

08 Riviera Sand

09 Black Gloss

10 White Gloss

11 Brushed Steel

12 Black Pearl

13 Gun Metal

Express yourself

Whether you're out to add a cool new touch, or find the inspiration for a whole new interior, Aspirante puts cutting-edge design at the heart of your bathroom.

Six stunning finishes. Natural, yet original

From the polished style of Black Gloss and White Gloss to the natural beauty of Riviera Sand, Aspirante has a finish that complements any bathroom. And with such innovative finish effects never having been seen on an electric shower before – ever – you can be sure you're giving your room a truly original look and feel.

Use it once. Know how it works

No need to memorise obscure settings and indicators. Aspirante works as beautifully as it looks. One central control does everything you need – from switching on the shower to a perfectly delayed shutdown sequence. If only everything in life was so easy.

Pure form. And function

All too often great design is at the sacrifice of usability. Not with Aspirante. A quick glance at Style and Substance overleaf will tell you that these showers are so much more than a pretty face.

Everything you need

Every Aspirante shower comes complete with a full shower kit: riser rail, adjustable showerhead holder, soap dish, shower hose, and a rub clean showerhead with 5 spray patterns. All you need is within the box.

06

Style and substance

Aspirante may take shower design to the next level, but it does so without compromising quality or efficiency. Everything, from initial installation to intuitive operation, has been considered, honed and perfected.

Simple to use

Illuminated soft-touch buttons power you up, power you down, and everything in between. Along with a single smooth-action control knob, you'll see how easy life should be.

Site with ease

Thanks to its discreet design, including more compact overall dimensions, Aspirante sits comfortably within any bathroom. That means you're free to design your interior with confidence.

A dream to clean

Each Aspirante shower comes with a rub-clean chrome-plated showerhead with 5 spray patterns. Along with an easy-to-clean face, keeping your shower in tip-top condition only takes a couple of wipes.

Inspired 'floating' design

A more slimline design gives the illusion that your shower isn't attached to your tiles, but sits floating in front of the wall.

8.5kW and 9.5kW models

Power, or 20% more power. The choice is all yours.

A breeze to install

A swivel water inlet connection means that Aspirante is compatible with both left or right pipe entry positions. This means that you, or your installer, will find fitting a breeze.

The confidence of a two-year guarantee

As well as offering all the above features and benefits, each Aspirante shower comes complete with Triton's outstanding two-year guarantee. You see, nothing has been overlooked.

07

Riviera Sand

Bring a little sunshine to your day. With its warm sand fascia, Riviera Sand helps evoke the memory of a sun-drenched walk along the shore every time you shower.

08

Black Gloss

The perfect little black number. With its rich, intense colour and beautifully smooth surface, Black Gloss is sure to add an eye-grabbing finish to any bathroom.

09

White Gloss

Whether you're out to enhance a coloured interior, or complement your very own oasis of calm, White Gloss will help you reflect just the right mood.

10

Brushed Steel

Brushed Steel has always been a favourite when making a super-stylish design statement. Now this incredible effect is available on your shower too. That early morning shower will have never felt so cool.

11

Black Pearl

Inspired by one of the world's most precious materials. Black Pearl delivers a deep black matt finish delicately flecked with white. Overall, the look is reminiscent of a pure polished pearl.

12

Gun Metal

You don't have to shout to be heard. Gun Metal may have the kind of reserved contemporary chic that sits comfortably in the background, but its satin good looks are sure to be a talking point for your bathroom.
